Username: Apollo

Password: xyz

## NATIONAL INSTITUTE OF MENTAL HEALTH AND NEUROSCIENCES

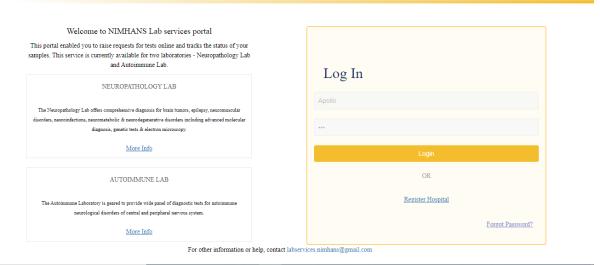

Image1: Laboratory Services Portal Login Page

After clicking login button, if the login credentials are valid, user is directed to the landing page with 2 boxes: "Neuropathology Laboratory" and "Autoimmune Laboratory". Clicking on "Neuropathology Laboratory" directs to the home page of Neuropathology lab. Clicking on "Information on how to send samples", "Charges for tests" and "Help?" opens corresponding documents for the user.

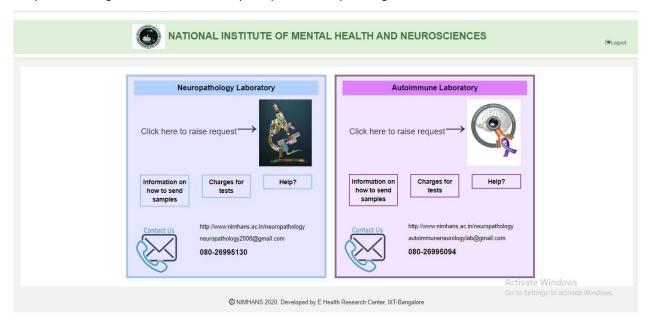

Image2: Landing Page

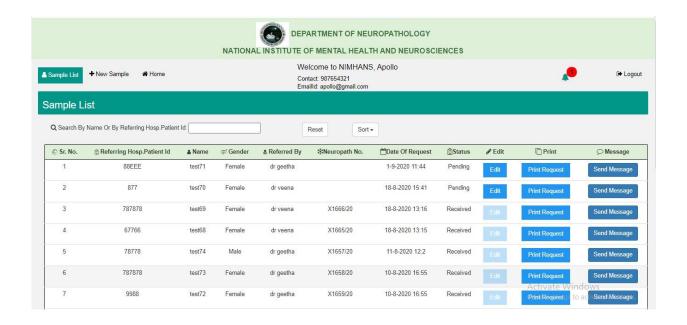

Image3: Neuropathology Lab Home Page

At the left top part of the home page, there is a button called "+ New Sample" for adding new external samples, which upon clicking directs to the page "Patient Registration". Here all fields are mandatory except Patient E-mail address, previous biopsy number and upload files. Mandatory fields are marked in red color asterisk. For payment, user has to select either DD or Online Transaction and fill in the corresponding fields. Only if all the mandatory fields are filled, the "Add Sample" button at the bottom is enabled. Otherwise it will be disabled.

To add test details for the sample, user has to fill all the fields such as specimen, biopsy type, biopsy site, number of samples in that row and click on the tick mark button at the right to add that details with the sample details. If user wants to delete any row which is already added, click on the cross mark button right. Amount for the tests is displayed in the "Amount" field automatically based on the sample selection. If the user goes to another page by clicking on logout or home or sample list buttons ,before submitting the patient registration data , all the entered data will be lost(A warning is displayed about this)

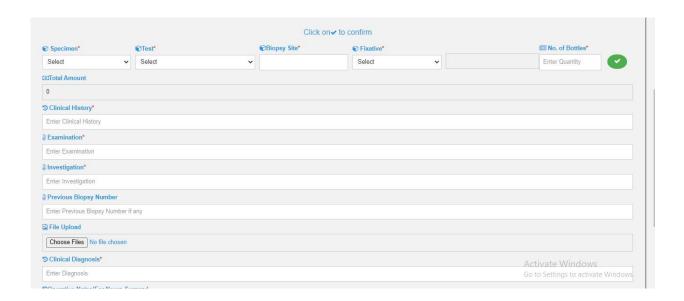

Image8: Add New Sample Page (Middle)

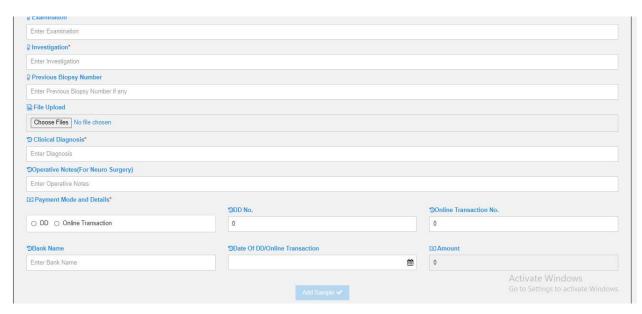

Image9: Add New Sample Page (Bottom)

In the home page, the user can see the list of external samples (LATEST FIRST order) with various details. If the sample is received at the receiving station of NIMHANS NP LAB, status in this table shows "Received". If not received, then the status will be "Pending". If the sample report is verified after all processing, status will be "Verified". If the sample is received, we can see the NP No assigned to that sample. Otherwise that column will be empty. Also if the sample is not received, the button "Edit" is enabled for editing the sample details. Otherwise it is disabled. There is button called "Print Request in the sample list table for displaying the added sample details. From the preview page, user can download the page. At the right upper corner shows the external transaction id which is the number which will be scanned at the receiving station of NIMHANS NP LAB to fetch sample details with test details and display in different fields in the receiving station page.

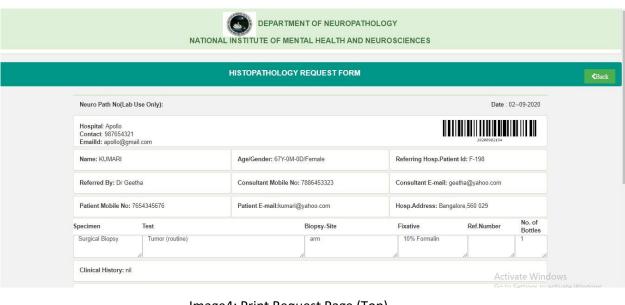

Image4: Print Request Page (Top)

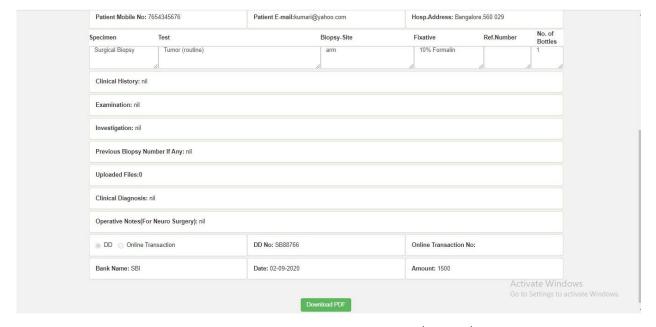

Image5: Print Request Page (Bottom)

There is another button called "Send Message" in the sample list table for sending message and upload file related to any particular external sample to the NIMHANS NP LAB. Also user can see the message history (both sent and received message) in this page for that particular sample.

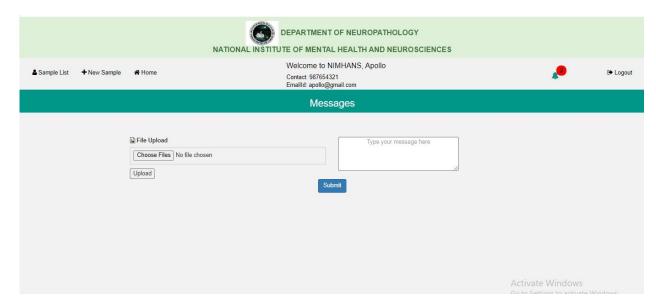

Image6: Send Message Page

In the upper top part of home page, there is a bell shaped icon to indicate notification. If there is any message/s from the NIMHANS NP Lab, for external sample/s, the number of messages , which are unread, will be displayed near the bell.

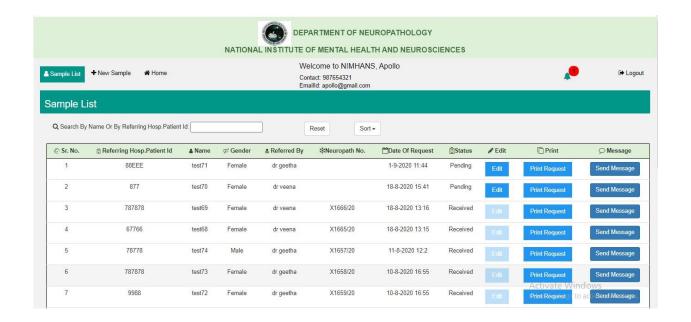

Image10: Home Page Showing Bell Icon

Clicking on the bell icon directs to the page "Messages" where user can see the list of all messages from the NIMHANS NP LAB. Unread messages are displayed in a different color and read messages in white color. Order of message display is Latest First.

Image11: Messages page

When clicking the "Read Message" page, user will be directed to the page where user can see the message history and option to send reply. In the message history, messages from NIMHANS NP lab

(received) are displayed at the left side and in a gray color while the sent messages are displayed at the right side of the page in another color.

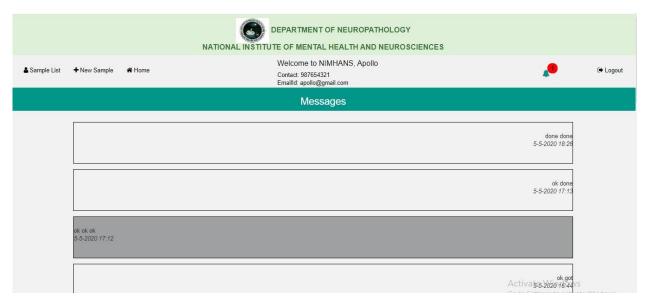

Image12: Top (History Of Messages)

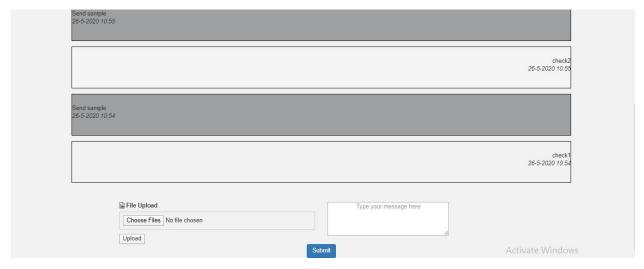

Image13: Bottom (Option to reply)

Also, in the sample list page, there are options such as "Search By Name or By Referring Hosp.Patient Id", "Sort" to sort the table data based on Name, Status, NP\_No and Referred\_By fields. "Reset" button is for resetting the page after selecting any sort options.
